can someone help me install k-9?
Posted by keywest - 26 May 2011 19:49

_____

chaverim: I need some technical help with k-9.I installed it.but it freezes up my whole internet.

Did anyone else have a similar problem?thanks

keywest

don't mistake movement with action,Hemingway

_____

Do you have any anti spy ware? sometimes they can interfere. But dont fall to the YH. I have seen that trap before and he made me remove my filter and a little while later.. no need to explain.

Dont uninstall without a real plan.

_____

I am trying to install it. I guess it is conflicting with my anti-spywear.

are there any geeks here that can help me?

_____

I had the same problem with ESET antivirus. I had a dozen falls until I realized what it was. Now I use Avira which is free, effective and works fine with K9.

Hatzlocho!
