#56: Our drug of choice eventually reaches a point where it's ineffective. We need more and different stimuli just to get our interest. Once we get there, it's simply not worth it, since **I'm barely enjoying this, but in ????** **they're gonna roast me for it none-the-less**

PS If it was GREAT or EXHILIRATING, maybe we could start thinking, ah it's worth burning in ????? to see her! but C'mon most of it doesn't interest me anymore, just the icky stuff I was always- untill now- revolted by.

Rava said "don't go to Gehinnom twice", meaning you live hell here on this earth and then again in the next, better to live FREE on this earth, and get reward for abstaining and building your character in the Next.

I feel like it's time to quote myself again.

Once you try to "reason" with the Y"H, you have already lost. Avoid a conversation at all costs!

I can read 90,000 (54) reasons not to, and I will still have the urge. Does that make any sense?

You can't "reason" with the Y"H. If reasons worked, we wouldn't all be here.
