

Keep on Failing

I dont know what to do anymore. It's Chodesh Elul and I'm supposed to be doing teshuva. Instead, i keep on failing. I really have no where to turn too and I'm not sure how to creep out of this mess.

There can be days that I watch myself, Daven erlich and do teshuva. Then just out of the blue, without any real push from the yetzer hora, BAM.

I think I need a one on one with a Psychologist!
