

Ipad/Ipod touch filters?

Posted by silentbattle - 12 Oct 2011 09:01

I'm sure there's a thread on it somewhere, but I have never been bale to get the search function on this forum to work for me. If anyone has any suggestions or advice in this area, I'd appreciate it!

to search the word 'Tzvi' for example in the GYE forum, try this in Google:

site:www.guardyoureyes.org/forum tzvi

just ad the word your searching at the end...

and you must have the 'site:' at the beginning.

good luck
