

I'm about to FALL!!

Posted by jerusalemsexaddict - 13 Aug 2009 21:26

Allright so as everyone here knows,we on the site often here desperate "call-outs" from people who feel that they are about to fall any minute.Sometimes the emergency units don't have enough time to respond to put out the fire,or are simply unaware of the emergency.

In any case,I am declaring this guardyoueyes's official 911 switchboard.

If there's an emergency of any sort,even a chashash,post here IMMEDIATELY!And well come to your rescue as soon as possible,iy'h.

You can post your emergency here,or give us a link to your thread where you can speak about your emergency.And our volunteers will respond as soon as possible to your calls.

As some people might feel uncomfortable reading women's struggles,I am putting one in the women's section,and whoever feels safe creeping over to the other side of the mechitzah is welcome to go in thereand help.

Wishing everyone the best-Uri

This thread is a really great resource.

Had a bit of slip up yesterday looking at things I know I shouldn't have. BH I was able to stop myself before it got out of hand. I'm currently 70 days in to the 90 day challenge and I'm nervous that this last stretch will be the toughest.

I removed the apps from my phone which would allow me to see things I shouldn't (my phone is also restricted so once an app is deleted I can't just re-download it). I also got into an argument with my wife and I was a bit under the weather. I think that combination of me being upset and in bed was the "perfect" recipe to get stirred up and lose care or interest. I find that those moments are always the hardest for me because I just feel like giving up.

Anyways, bH I didn't fall (got pretty close) and I just have to stay positive and keep focusing on each day as it comes. Always open to hear any advice from the incredible community on here.

I appreciate you all.

-eom

One thing that we keep on repeating here is "ONE DAY AT A TIME" Please don't think about the "last stretch" it's not a stretch... it's only one day, TODAY!

Keep strong!

Hi I almost fell,

I decided To check out my filter to see if it works.

It totally took me over.

Thank G-D I didnt fall, but i am a bit upset

no i acted like an animal.

almost lost 600+ days

just to show, we always have to be on the radar

Yes! That's such an important fact...

?? ?????? ?????? ?? ??? ?????? ?????? ??? ?????? ?????? ??? ?????? ?????? ?????? ?????? ??????

Do not be sure of yourself until the day you die, as Yo?anan the High Priest served in the High Priesthood for eighty years and ultimately became a Sadducee.

A vort from R' Moshe of Kobrin is that after 80 years ?????? - he felt himself to be a tzaddik. The implication (in view also of the other teachings on that page) seems to be that this led him to pride and then to going wrong.

Hi

Did you try the partner program?

guardyoureyes.com/tools/partner-program

For now, we're all your partner...

Keep strong and have a great shabbos!

The internet on my phone is blocked but I need internet for work so I use my wife's laptop for

work. She has covenant eyes on there. The thing I dont think it reports info from incognito tabs.

I only go on GYE on incognito because my wife doesn't know yet that I have an issue.

Right now I'm struggling majorly the last few hours to do something that would've been unthinkable and watch porn on my wife's computer on an incognito tab. And once I do I know it's going to become a place for me to watch whatever I want.

So even if I tell her to block incognito as well then I'm not going to be able to go on this website without her finding out, and I'm not sure if I'm ready for her to find out yet...

I NEED HELP NOW!

Speak to @Lionking, he is the filter expert here on GYE.

Does Covenant Eyes monitor Incognito Mode/Private Browsing?

Accountability is not turned off when someone uses Private Browsing. Our technology does not rely on browsing history. On computers, our software will still take screenshots when Private Browsing is being used. On Android devices, our app will detect the use of Private Browsing and note it in the next report as [Unmonitored Screen Activity](#). For additional details, see [Does Covenant Eyes monitor Incognito Mode/Private Browsing?](#)
