

G-d Sent Me A Message

Posted by Holy Yid - 24 Oct 2011 06:26

I have been having a rough few days. I open my GYE email account and was scrolling through recent chizuk emails. Most recent emails were re-runs of old ones.

As I read through the emails I realized that one of the things quoted was something I had written over a year ago. This was a shock for me and got me on a better track.

beautiful!

we should all be zocheh to hear the 'bas kol from har chorev' every day

in m GA meeting this guy came up with a great saying. "there is no light at the end of the tunnel, we are in the tunnel and the light is on." meaning day by day we must fight and keep the light on.

I might suggest a spin that the light is always on, we just have to look and see it.

I should add that what shook me up about the quote of myself was that I realized that at the moment I would not even think in the terms I was thinking then and certainly would not do what I had then.

The Divine virtue in Guard being too busy to compile new chuzik emails is exposed a bit

Why did moshe need his hands raised during the battle of amalek for us to win?

We need to look up to Shamayim to see the light - at very least we wont be looking at the filth that's down here.
