

MEDICAL TIPS

Posted by BokerTov - 30 Apr 2012 15:09

Hello there everyone,

This place is wonderful and I am glad I can be amongst so many holy brothers.

I came across the medical tips page (<http://www.guardureyes.com/GUE/Tips/TipsMedical.asp>) and have been suggested to try out Henna. Does anyone here have experience with this or know where I can get ahold of Henna in the US?

Do you have any experience with Potassium Nitrate or Ignatia D6 + Conium D6?

Any help is very much appreciated.

-Boker
