

PLEASE HELP!!!

Posted by BokerTov - 30 Apr 2012 16:11

Hello there everyone,

This place is wonderful and I am glad I can be amongst so many holy brothers.

I am in a lot of pain and have been physically hurting my organ with chronic masturbation.

I came across the medical tips page (www.guardureyes.com/GUE/Tips/TipsMedical.asp) and have been suggested to try out Henna. Does anyone here have experience with this or know where I can get ahold of Henna in the US?

Do you have any experience with Potassium Nitrate or Ignatia D6 + Conium D6?

Any help, advice, or is very much appreciated.

I have a negative reaction to antidepressants and cannot take them

-Boker

Hi friend, and welcome to the forum!

I wouldn't take medical advice from anyone here: we don't know you and you don't know us. I did follow the link you posted (never seen it before) and here is my idea based solely on reviewing the info on GYE/Medical tips:

I can't imagine that a herbal supplement could be harmful, so unless it gives you an upset stomach, it's probably safe to try. For anything else, including Nitrite (which can give you kidney damage) I would definitely talk to a real (not internet) doctor, someone with experience in sexual obsessions and accountability.

But I think the main point is this:

Often in our condition, we long for a magic pill that will cure us once and for all. The good news is, there ain't no such thing. It's good news, because it means that with G-d's help, you can stay obsession-free for the rest of your life, without depending on your prescription running out.

Please stay around here and research this site for myriads of tools that have proved helpful to

tons of people, without resorting to drugging your system.

If you think your case is unique, I would encourage you to share your story with us, and after we compare notes, I'm sure you'll find yourself in like-minded company.

Hatzlocho,

Mottel

Hey there Mottel,

Thanks for your kind welcome and advice.

I am not unique. I am a run of the mill sex addict with all the history that comes with it. Been addicted to lust and masturbation since about 4 years old.

I am just in physical pain at the moment and am looking for help.

Thank You.

-Boker

Try an ice pack (wrapped in a pillowcase) under your beitzim, including the area just behind them.

And welcome!

If you feel actual medical pain pm me I might be able to advise you. It might be something that might need immediate medical attention. If the pain is coming from the area of the Beitzim then go to a doctor right away
