Posted by gyegye2 - 09 May 2012 15:15

I follow the 90 day chart

when i had a fall... i felt like I am anyway "tume" for this day

and like I anyway dont change anything on my chart IF I FALL AGAIN THE SAME DAY.

so after a 8 day break i fell twice a day...

Does anyone understand me?

The information about the filter gabai is [here](#) I think that it's still an ongoing thing.

The way to blacklist a site without the password is [here](#).

thank you dov for your inquiry..

I am good...

i saw some interesting vort on the top cover of the "alim letrufa"

they explained a piece of noem elimelech...

that every day is a separate fight and a separate win....

if you won yesterday... ( or for a long while...) don't think that you don't have to be on guard... on the other hand... you should know that each day you won... you should celebrate

I have never won a day in my life, so I would not know. And that is not semantics.

You can do a better job blocking stuff? Why haven't you been taking the necessary action all along? Is this new block the final frontier...or are there more measures you are refusing to take - until things get worse...and then even worse...and then really, really worse...?

Just asking.

HELLO DOV,

I ALWAYS HAD A FILTER,

NOW I JUST MADE AN OPTION SO I CAN ADD SITES TO BLOCK ALONE.

THANK YOU

I wish you hatzlocha in coming forward honestly over here - or anywhere else useful - when and c"v if the filter idea does not save you from screwing yourself up and admitting it. It will invite suggestions for why you even have a computer, and if your staying clean is really a priority to you...or it will invite sweet talk to help you 'feel better'.

Which will you prefer?
