

oh no..

Posted by tocontrolmyself - 20 May 2012 23:16

i just started doing well but now access to 12step conference call has become an impossibility bc of expense of a cellphone with over 900 minutes amonth what should i do???
should i just quit and read the bigbook on my own???

there are online phone options that are cheaper than a cellphone, but usually not free. gchat, skype, and there is one for the ipod specifically if you have one.

Try PagePlus pagepluscellular.com

Unlimited talk & text and 100MB of data for \$40/month prepaid. Works on Verizon's network with any Verizon phone.

or 1200 minutes for \$30/month.
