

Best reporting software

Posted by gyegye2 - 29 May 2012 14:42

:o I want to install a program something like webchaver, that will report my internet activitys to anothr person.

is there any free software? what are the best options?

Thank you for your help!

would recommend Yishmoreini.com

it's free and it works on the Webchaver/Covenant Eyes platform
