

Short-term memory

Posted by DesertLion - 20 Jun 2012 08:42

Hey Guys,

Even though I've not been addicted to masturbation for almost 6 years now, I still have problems with short-term memory. Any of you experienced/experiencing this too? I'm almost certain that this is a consequence of years of self-abuse. Do any of you know if this problem ever gets better or if it's something I'll struggle with for the rest of my life?

Thanks!

DL

Ginko Biloba.

Also, toiveling in a kosher mikve.

Both boduk umenuse.

Cheers I'll give it a try!

What's boduk umenuse?

Thanks, can't beat tried and tested methods lol!!!
My short term memory is not what it used to be, also.

Also, my short-term memory isn't what it used to be.

So try ginko biloba and toiveling in a kosher mikve.

Mottel, if it's Boduk Umenuse why aren't you doing it. And if you are, and...

My short term memory is not what it used to be, also.

Also, my short-term memory isn't what it used to be.

;D
