Any of you experienced/experiencing this too? I'm almost certain that this is a consequence of years of self-abuse. Do any of you know if this problem ever gets better or if it's something I'll struggle with for the rest of my life? Thanks! Cheers I'll give it a try!

What's boduk umenuse?

Also, my short-term memory isn't what it used to be.

So try ginko biloba and toiveling in a kosher mikve.
