

How should I destroy my computer?  
Posted by Tomim2B - 27 Aug 2009 23:08

---

Hey guys, I have a couple of p\*\*n infested laptops I want to get rid of - this is for the DELL. Join in the poll; let's make this fun! :D

I would recommend trying one of these latest "registry clean-up programs." I tried one because my computer was really slow. Afterwards half the programs stopped working and needed to be re-installed. My scanner, and other important software, still doesn't work.

If you're going to destroy it, I would highly reccomend doing it in the most active way possible.  
Sledge hammer -all the way!

Guard, I absolutely love that song! Just heard it for the first time now. It's the GYE theme song!

Do you know who sings this and when it came out?

LOL! ;D ;D

Hmm..., I wonder how that would taste...
