Post Bugs and Problems Here
Posted by the.guard - 14 Dec 2012 17:49

_____

Since we just switched over to this new forum, we need your feedback! If anything doesn't work the way it should

- If you find a bug or problem
- If there are features you miss from the old forum that this one doesn't have
- If there are features you'd like to see on this forum

Please let us know! We have a team of the most professional developers who can fix/create

You can also let us know **by e-mail** at gye.help@gmail.com.

Thank you!

Hi Guard! Still taking corrections?
almost anything we ask them to. Don't be shy!

Is there any way i can set how long i get notifications on GYE, as it says new replies, when i posted. Sometimes when i post on a forum and then i don't post anymore, for months it still says it on the new post!

well once we are discussing GYE format I'd like to extend a thanks to who ever changed the fonts under tools/forums. The chat room fonts also changed. Its very neat and user friendly! Job well done!

Thank you!

After being here for 2 years I can say that the whole website is only getting nicer and better with the time, it's more attractive and also more friendly user.

Recently there were many nice updates and changes by the Chat and by the Forums

So I would like to say thank you to GYE and please keep up with this great work

Chazak Viametz Vtizku Lmitzvot

I have a suggestion: It would be a good idea to have Drafts in the forums, like we have in Email.

A lot of times we write a long post and then we have to go offline (because wife entered the
) and we loos the whole post. so if we are logged in, maybe its possible that our post should go to Drafts?

Again thank you for helping caring and for wanting our best.
