

Guys, i need an advice fast, na!

So far so good, no falls since the end of August B"H, except one in the beginning of January. I work in a call center and have the best job there, B"H, i am really blessed. I don't have any work and that's what it makes the job good. I daven, i study, read and even sing out loud, the office is all mine for i am the only one who is there at night. And after my service i go to sleep. On the floor. In a sleeping bag.

But... the leadership decided to give us another project where we would actually have to work. This project is the telephone service of a website for women clothing. The clothing on this website is full with immodesty and they even have erotic underwear. As you can suppose it's not the clothes only on the pictures but female models wearing them. I visited the site as i was told but couldn't stay there for more than a few minutes. I prayed that Hashem would cancel this project but they told me it's starting on monday next week!

So my job would be to know where every cloth on the website is, what are the latest best offers and everything that would a client need to know.

Suddenly the great job that i had was ruined because of this project for women clothing. What are your thoughts guys? Please give me an advice what should i do in this situation. I want to keep my job but i want to keep my eyes and inner man more than i want the job.

THANKS in advance!

B'ahava

Don't really know too much about anything, but just a little thought that addictions kill, better to lose a job than to die.

And just to remind myself and anyone else interested, I am a very sick person, sex is more meaningfull to me than anything else in the whole side world, every day clean is a miracle.

All the best!!

I want to echo CCs advice. Dont do it.

The same way an alcoholic would be making a critical mistake if he chose to be a liquor salesman, you should not put yourself in an environment where there are opportunities to fall right in front of your face.

Waouh !!!!

You are impressive. In this Chabbat Bechalah', Midrash said that the sea opened when it saw Yossef's coffin. Yossef had the zekhout to escape the nissayon. You are like Yossef !

I'm sure H. will give you a job very soon !

Wow!

I am in awe of your ability to take such a strong action to avoid a nisayon.

We should all have such strength!

Hatzlacha Raba finding new suitable employment!

as with everyone else, I was going to post that you should ask a posek, but then I read what you did. I'm a shtickle awed. I dont know if I'd have been able to do that. Like, I might have gone on . "Open for Me a hole the size of a needle and I will open for you a hall." I would love to hear about what amazing opportunities come your way, both those you see and those you dont. mamash, yasher koach gadol and nothing but hatzlacha!

Toda raba guys... I'm sure that Hashem sees all the love in this forum and won't stand aside...
I'm sure He is also in our midst going from heart to heart showing that love and care to every
one in here...

Your words really touched my heart and filled it with goodness and belief that Hashem Yitbarach
has good thoughts for us. As it is said in Yermiyahu "For I know the thoughts that I think toward
you, saith H', thoughts of peace, and not of evil, to give you an expected end."

May Hashem help us walk, may He lead and guide us now and forever.
