

Need Help with Passwords

Posted by the.guard - 07 Oct 2009 22:40

On this page: www.guardyoureyes.org/?p=24 we tell people to put in my e-mail address for passwords, and if they need to change something, we offer to use a program called "ShowMyPC.exe" to access thier computer and make changes for them.. A lot of people keep asking me to make adjustments to their K9 filter and it's really hard for me to keep up with it all, and find the time. I need someone to help with this. I would put your e-mail address on the site for people to use, and when they need adjustments, they would contact you.

Post here is you're computer savvy and should have no problem with this... It shouldn't take up more than an hour a week of your time...

THANKS!!

i can do it if you want.

i'm not online 24/7, but i'm on enough that i think i could help.

unless you want a guy again.

whatever you want.

Thanks for the offer, Habib. But I just realized one problem... I keep all the e-mail addresses of the girls on the forum hidden, because we don't want anything c"v innapropriate happening.. But for this to work, I'd have to give out your e-mail address... And many guys know you're a girl... I don't want them being triggered thinking they are contacting a young girl about such

issues...

Sorry for the disappointment again. I'll yet find something for you, don't worry... Maybe when we get too many donations for me to handle keeping track of, I'll make you our accounting
)

May Hashem reward your good-will as if you did it!

I would love to do it but I am not online that much during the Zeman, Thank G-d, so I am not the right guy. Regarding donations and publicity do you have allot of tags on the site so it pops up often?

Thank you Loynata.

1) Are you on-line a lot?

2) Are you computer savvy?

3) Do you have a PC (not a Mac)?

If yes, send me your e-mail and I'll put it into the page here: www.guardyoureyes.org/?p=24

Thank you!
