Hi there

I am not new to GYE. I write from this account because of privacy concerns. Anyways I am a desperate individual and I really want to get sober. I am looking for a parter or preferrably a sponsor from South Africa - my current country of residence. If anyone is south african or knows of any south african GYE people who are interested please let me know somehow. I would prefer to start of with some sort of email contact and take it from there. A thousand thank yous and looking forward to any advice!
