This TRUE story has appeared in "AMI Living" Magazine of June 1. 2014 / 3 Sivan 5774, Issue 171.

There are a number of different lessons we can learn from this story.

I would like to hear what lessons other GYE readers took from the story.

whoah crazy article. Thank God he's ok now. I love the Rav's comments. Each person is different and we need to approach every person differently. Not sure if he did the right thing but maybe not speaking was better than speaking, if it means ruining his life. (as in losing his wife and children)
