

Solutions for Tonight

Posted by waydown - 16 Aug 2015 22:06

Guys I need some ideas how to overcome my yetzer for tonite. As I have posted before I normally fall asleep via J/O. And if I wake up in middle of the nite I'll do it again. Any ideas how not to? So far for starteres read something clean before sleeping.

I will be on only for another hour or two. I do not want log in to the internet once I get home from shul even if its just for GYE. Its just too dangerous. Thus the urgency

Ok so unfortunatley I did fall last night but I am not sad about it. I will just start again.

Just to cut myself some slack, I had a really hard time falling asleep last nite but I didn't give in. However, I was forced to wake up twice in middle of the night. (for my kids) By the second time of waking up (3rd struggle of the nite) I finally just gave up fighting and scummbed. Its not an excuse but the yetzer hara was sure at work last nite. He doesn't stop.

I will not get sad. Rather I will dust it off and start anew. As someone who never went to sleep without my dose, I feel that I am already off to a good start. Here is why,

Basiclly there are two reasons that I am here,

1) I am jewish. Form a yiddishkit point of view my behavior (and what it can lead to) is unaacceptable. I know this can't be our driving factor but nevertheless is defintley something to reckon with. In fact GYE's ad is about feeling like a hypocrit in front of the rav! So judiasm and moral values has to play some role. That being said, I say I am off to a good start. This rosh hashana I can turn to hashem and say hey look I ain't perfect. But if I can go 8/9 days (Hpefully weeks) with no sins when prior to ellul it was daily thats teshuva. Plus, as long as I have my eye

on the ball (and don't allow it to be a dily occurance rather a slip) I won't let myself spiral out of control to the point of porn/flirting etc..

2) The lust issue. Yes its an addiction and feeding it is no good and its dangerous. Of course I think even wihholding for a 8 days somewhat attacks the addiction too proviiding you don't spiral back. However leaving aside that pointer, its a confidence builder. Right now I still don't see how you guys can hold back for 90 days. (and 18 yrs! fuggedaboutit!!!) But now I see how one can reach say one month.

So I will continue my journey as Codrnoy suggests one day at a time. I will also not got down if I fall. To the contrary I am proud of what I have done till now and I expect to fall every now &then.

Good attitude.

KOMT!

I like that (although not everyone agrees).

Keep two sets of numbers; the first for beginnin' of real recovery (which hopefully it is), and the second for current streak.

It is similar to the accumulative days.

10/3 Days Free!!!!!!!!!!

I must make two pointers;

1) While nite are still a struggle, I think my body is getting used to the idea of falling asleep without my daily lust dose (aka masterbation) BH.

2) This lust thing while stimulating and soothing always tended to make my body tired. In a physcal sense, I feel like I have more koach thoroughout the day.

I went through the same process a few years ago when I stopped M-ing, I had a hard time falling asleep for a while without my "tzummy". But eventually I found that I actually needed less sleep! I had never realized how tiring acting out was until I stopped.

It gets better and better, KUTGW & KOMT!!

In the beginning I actually cried myself to sleep, just like a little baby without his tzummy...

I also started being careful to keep my hands outside my blanket. That also took a bit of getting used to.

14/6 Days Free!!!!

Ok so last nite I got lucky. The itch (my misquito bite!) was really terrible. I just needed that tzumi. So B"H my wife was in the mood and I was able to do it in a kosher manner. I know its a whole discussion when with your wife if its lust verse love. Giving verse taking. But at the end of the day for us beginners it was a big help. Knowing that I can just hold it in a bit and do it in a muter way has helped out. But now is when the challange really starts. My wife is now assur. So when a I get that huge urge like last nite what do I do?

(I am not exaggrerting last nite was like almost a diherria lust urge. I get those very now & then. IT just like must come out. So what do i do then?)

There is no handbook for every specific situation. We try to take actions to reduce the nisayon. Sometimes we have to just white knuckle. It's a process. Keep working at it, stay committed to do whatever it takes. IY"H, you will see fruits of your labors.

I don't think I am unique. i would imagine its a common tendency for people to get very itchy (more horny) at times. The question is what do we do when the itch just drives us nuts.
