

Solutions for Tonight

Posted by waydown - 16 Aug 2015 22:06

Guys I need some ideas how to overcome my yetzer for tonite. As I have posted before I normally fall asleep via J/O. And if I wake up in middle of the nite I'll do it again. Any ideas how not to? So far for starteres read something clean before sleeping.

I will be on only for another hour or two. I do not want log in to the internet once I get home from shul even if its just for GYE. Its just too dangerous.Thus the urgency

So why not go to a Kabbalist to extricate the poor languishing dibbuk - no wonder you can't sleep at night

In all due respect I don't think it's a dibbuk. I think Hashem created you with very strong physical desires. That doesn't mean Hashem wants you to give in to those desires. Knowing that this is an inherent part of **you** might be a help to win this battle. If it's all "because of the dibbuk" it might be harder to conquer the beast. Get more stragedies and keep fighting!!!!

Still working on the nights.

I will say that my Sundays at home are so much more peaceful when I am not busy e-mailing women. Instead I can actually spend undivided time with my wife & children even with putting in a bit of work.

OMG waydown

what happened to your tavia?

are you ok?

are you in ICU?

Markz,

I had a cold and low fever so the tavia was not there. My problem is when the cold goes away

like last night

So, do you want to share what happened last night?

Moish ,

Basicly the good old problem. Not being able to fall asleep, twisting and turning till i swallow my lust pill called masturbation.

Thanks for the share.

Perhaps it would be beneficial to update daily regardless of success.

Moish,

I do try to do that and thanks for the chizuk

Despite my embarssment and I think lack of will power to commit I will still post that I am struggling with masturbation at nights. Maybe at-least if I post long enough i will build up some will power. Last nite was good till 5am.

A silly suggestion. It might work for some people. When you can't sleep get out of bed and take a gemara or shulchan aruch or any serious limud and have a saider for those times. If you suffer from sleeplessness this will happen a lot and you will end up covering a lot of learning. This way you will feel good rather than bad.

Just a silly suggestion. You may ignore my foolish ideas, but someone told me I should just post what's on my mind so I'm doing that even though what I have to say is probably just silly.

Hashivah, I think that's an awesome idea. While there may be some truth to the oft repeated idea that looking at lust only as a religious issue often doesn't help some of us, I believe we shouldn't leave it out of the equation completely. If you are already involved in learning, as Waydown appears to be, it could be a great tool.

Thanks for posting your "silly" thoughts.

Besides, it's a known fact that learning at night makes you sleepy.
