

Filtered Device Calendar - see 1st post

Posted by Markz - 19 Aug 2015 20:00

In this group, logging or continuing overtime on any non foolproof **FILTERED** device (i.e. that has any possible access to inappropriate websites / apps) late at night is not practiced.

Here is where we log dates and times only

- **How long you want to join for**
- **Your 'good night' time, and 'good morning' reactivation time**
- **Periodically update your calendar** if you want to extend, quit / take a break, or are jumping back on.

To review the rules, for questions, and to comment, please go to the Discussion Blog [HERE](#)

Summary

- Choose 10, 10:30 or 11pm.
- If you decide to login or continue after your 'goodnight time' you must first write a valid reason / excuse on the [Discussion Blog](#) why you feel exception should be granted to logon.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.
- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post all comments regarding the LOG calendar, in the [Discussion Blog](#)

Maybe try it for 7 days...

[Markz wrote on 28 Mar 2017 12:57:](#)

Last night was a video whopper 613tubing

As long as someone is awake in the house I tell myself it's ok to be on... then I overstayed another hour... then I told myself 'you're gonna have to pay the \$15 in any case, so why not stay on another hour?

at least get your money's worth'

No X-rated stuff. And when something popped up, I followed the 30 second rule

Just sharing...

ag shame man. For me this is playing with fire. acidic fire.

Ok I'll try better

I definitely don't want to get singed

Litvish fire is more Kalt.

What's day and what's night? Plenty of people take naps by day. I would like to make my new commitment during the daytime plus aother quirk. My internet is officially filtered, but there is still some harmful content that trickles through. This typically happens when I'm in a Wi-Fi zone. So, I propose to make my commitment as follows - and let me know if this is too different from the original intention of this calendar.

DURATION: until r'c iyar

HOURS: all day whenever in a wi-fi zone.

WHAT: five minute limit with a half hour cool off in between.

EXEPTIONS: whenever my wife is likely to walk into the room without warning.

EXEPTIONS#2: whenever I feel like it.

mark be like ...

"say what?"

Hakol Hevel besides for this thread...

Oh actually some others too ;-)

Hi Markz,

i had last night a wake up call, or goodnight call. I always thought that nights on, were a non issue. Last night I was browsing a ok forum and noticed something that I shouldn't be seeing. Next thing I know I wasted an half hour lusting for more..

B"H, I was not caught up yet in lusting and managed to pull myself yet, without masturbating, however I did look at inappropriate material.

I can't commit to a 10:30 or even 11pm cutoff. Perhaps 11:30. Will try for 1 week IY"H.

I will IY"H setup a profile to turn off data at 11:30pm automatically.

Exceptions: Phone calls and text are permitted.

I will IY"H setup a profile to turn off data at 11:30pm automatically.

Exceptions: Phone calls and text are permitted.

Update: My profile is set up and working to automatically disable data every night at 11:30pm. Love tasker app for all my automation needs.

Was debating if I should whitelist GYE, however I decided against it. I need some downtime.

I know it is not foolproof, and I can easily bypass it, however I don't think that it is a problem. If I am lusting, I will manage to get my fix one way or another. I need to distance myself 2 degrees away from lust.

This is just an easy setup so that I can set it and forget about it and not focus on the time every night.
