Filtered Device Calendar - see 1st post

Posted by Markz - 19 Aug 2015 20:00

In this group, logging or continuing overtime on any non foolproof **FILTERED** device (i.e. that has any possible access to inappropriate websites / apps) late at night is not practiced.

Here is where we log dates and times only

- **How long you want to join for**
- **Your 'good night' time, and 'good morning' reactivation time**
- **Periodically update your calendar** if you want to extend, quit / take a break, or are jumping back on.

To review the rules, for questions, and to comment, please go to the Discussion Blog [HERE](#)

Summary

- Choose 10, 10:30 or 11pm.
- If you decide to login or continue after your 'goodnight time' you must first write a valid reason / excuse on the [Discussion Blog](#) why you feel exception should be granted to logon.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.
- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post all comments regarding the LOG calendar, in the [Discussion Blog](#)

Maybe try it for 7 days...

Thanks balabos.

I already sent +-\$40, and Yesod is taking out a mortgage to pay his...

But thanks to this Good Night Calendar I have saved myself more than 400Hr from kosher YouTube (I had favorite pornfree videos I'd watch nighty, which often led to...), so it's a wise investment

Welcome to the exclusive club that is here to keep gye's coffers full

2 MONTH TRIAL

There's one exceptional kosher website that will be allowed after our shut-down time

The one and holy

Guardyoureyes.com

No other websites will be tolerated - not any Torah websites etc

Now guys I'm asking you a favor to please let me know if you experience any glitches

I.e. If it happens over the next 2 months that you logon to gye after the good-night time that's now been 'permitted', and thereafter it happened because you were on your device in any case, that you 'slipped' and went to any other website, without announcing it here first

Hi Markz

Thank you for the offer. Nevertheless I'm not going to benefit from it.

Kosher Websites including GYE have recently become increasingly time-consuming for me (I
(), resulting in tiredness (following other troubles) and
missed Tefila betzibur davening times.

So my idea was to commit to the calendar to keep me away from computers altogether after
shut-down time, according to the rules.

BTW, I had to pay knas for my last fall, received credit card bill on Motze Shabes. Annoying! For
next time: Think first...

My commitment ended last Wednesday, Tanis Ester. I'm renewing it starting from tomorrow
Thursday until R"Ch Iyar.

Shut-down-time: 10.30 pm (local time, of course), Motze Shabes: 2 hours after zman.

I assume there is no problem being logged in before "bedtime" to finish a task for another 5/10 minutes.

There's no problem going past the good night time - we are not monitoring your computer or the balabos of your life

but if you commit to this calendar, it doesn't really make a difference if you are logging on after the device sleep time, or are allowing it to continue from a few minutes before.

If you share why you'd like an exception each night, that's fine.

Chap arein, the day is still young

for you, not for me
Posted by Balabos - 30 Mar 2016 21:50

I did not understand it that way, so I admit I overtimed once for 2 minutes or so in order to finish a payment for the next day.

Chayow knas?
