

Filtered Device - Blog. See 1st post

Posted by Markz - 19 Aug 2015 20:09

Here's the plan

In this group, logging on any filtered device that has 1% possible access to inappropriate websites / apps, late at night is not practiced.

- Choose 10, 10:30 or 11pm. Any important use can usually be done after 5am when we are in a clearer frame of mind.
- Any device that is 100% foolproof internet safe e.g. with white lists to exclusive kosher sites (unlike regular filters) is not a problem.

How To Join The Group?

Please go to the [LOG Calendar](#) found on this link [HERE](#), and post only:

- **How long you want to join for**
- **Your 'good night' time**
- **Periodically update your calendar** if you want to extend, quit / take a break (cos the knas's are getting too expensive), or are jumping back on.

Write a reason on this Post

If you decide to login after your 'goodnight time' you must first write a valid reason / excuse here on this blog why you feel exception should be granted to logon.

- Only extraordinary or emergency situations can be approved - no working overtime / browsing / shopping etc.
- If your friend / wife is with you, that can be a valid situation.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.

And if I forget?

- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post ALL other questions and comments regarding the LOG calendar, in this Blog post.

Maybe try it for 7 days...

KOT!!

I too had to 'work' after hours last night, some half hour for an urgent Tzorchey-Tzibur issue. I had to finish it that night and didn't want to miss my Shiur.

Only Computer file and E-Mail, no Internet browsing.

Markz,

You're basically right, I thought of posting, but refrained from it for 2 reasons:

- it would have brought me to open the internet browser
- due to different time zones, my G'Night time was your afternoon, posting would sound pretty funny.

Anyhow, in retrospect I'm unsure if what I thought was a "Mitzva" was really what Hashem wanted from me. I'm tired now and have slipped with inappropriate material. This is kind of

A guten chodesh

I personally believe the calendar is only a "Heker", you may need a different GPS tool (see signature below) to crank up and keep on Monstah Trucking

Thank you. I couldn't agree more.

For me it's crystal clear that my slips today happened out of tiredness. And therefore going to sleep in time needs to be top priority. Without Terutzim.
