

Filtered Device - Blog. See 1st post

### Here's the plan

In this group, logging on any filtered device that has 1% possible access to inappropriate websites / apps, late at night is not practiced.

- Choose 10, 10:30 or 11pm. Any important use can usually be done after 5am when we are in a clearer frame of mind.
- Any device that is 100% foolproof internet safe e.g. with white lists to exclusive kosher sites (unlike regular filters) is not a problem.

### How To Join The Group?

Please go to the [LOG Calendar](#) found on this link [HERE](#), and post only:

- **How long you want to join for**
- **Your 'good night' time**
- **Periodically update your calendar** if you want to extend, quit / take a break (cos the knas's are getting too expensive), or are jumping back on.

### Write a reason on this Post

If you decide to login after your 'goodnight time' you must first write a valid reason / excuse here on this blog why you feel exception should be granted to logon.

- Only extraordinary or emergency situations can be approved - no working overtime / browsing / shopping etc.
- If your friend / wife is with you, that can be a valid situation.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.

### And if I forget?

- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post ALL other questions and comments regarding the LOG calendar, in this Blog post.

Maybe try it for 7 days...

KOT!!

No, i didn't post it because currently my unfiltered device calender is 24/7. I (currently) can't trust myself at all so i don't have any unfiltered devices. I do check in on this thread though. :-)

I had updated the first post a few months ago that this is not for unfiltered devices

*"Logging on any filtered device that has 1% possible access to inappropriate websites / apps, late at night is not practiced."*

Today I have updated the Tread title

If you have filtered devices that can be breached (even if only 1%) feel free to join this [calendar](#) which has benefitted me very much

Guys the instructions was

- Only extraordinary or emergency situations can be approved - no working overtime

Id like to remove that stipulation provided that we note an extension request, as I'm doing now

Whatdya think?

I had a crazy day and was supposed to put in time to work which didn't materialize. So I'm planning to put some time now p'haps 30- 2hr

It might fit for you. Therefore I'm not opposing.

For me this is poison! **T** of HALT is my top trigger.

It was a nice trial but I'll follow your lead on the **T** although I wasn't that tired, because I sneaked a few kosher you**T**ubes while I was online, so I think we should keep that requirement on the first page

Thanks BB

I overtimed last night. I had to do a few installations on my wife's new computer. By nature, it took longer than expected. I'm paying the fine.

Thanks BB

Hey take it easy - ODAAT

**Warning: Spoiler!**

I overtimed 3 nights ago, but wasn't in restricted time zone cos I hadn't yet re-commited

Its time to "renew again"

I need about 10 minutes now, to finish some important Zorchey Tzibur work.

Hope that's OK.

Hi.

My confession: This time there are no excuses, I'll pay the 15.

I had an obsession with finding a way to restore a deleted video file of an old PC. I was not surfing on the internet, but still the video was not a shiur... (the opposit, in fact). It began with 2 minutes, and ended after over 2 hours. BORUCH HASHEM, restore was not succesfull !!, but
