

Filtered Device - Blog. See 1st post

Posted by Markz - 19 Aug 2015 20:09

Here's the plan

In this group, logging on any filtered device that has 1% possible access to inappropriate websites / apps, late at night is not practiced.

- Choose 10, 10:30 or 11pm. Any important use can usually be done after 5am when we are in a clearer frame of mind.
- Any device that is 100% foolproof internet safe e.g. with white lists to exclusive kosher sites (unlike regular filters) is not a problem.

How To Join The Group?

Please go to the [LOG Calendar](#) found on this link [HERE](#), and post only:

- **How long you want to join for**
- **Your 'good night' time**
- **Periodically update your calendar** if you want to extend, quit / take a break (cos the knas's are getting too expensive), or are jumping back on.

Write a reason on this Post

If you decide to login after your 'goodnight time' you must first write a valid reason / excuse here on this blog why you feel exception should be granted to logon.

- Only extraordinary or emergency situations can be approved - no working overtime / browsing / shopping etc.
- If your friend / wife is with you, that can be a valid situation.
- If the reason is rejected by the forum group or administrator, we commit to pay \$5 knas to GYE.

And if I forget?

- If we logon and didn't 'Write a reason', there's a \$15 knas to GYE the following day, regardless of whether we slipped to sin in the clutches of the web or not.

Please post ALL other questions and comments regarding the LOG calendar, in this Blog post.

Maybe try it for 7 days...

Tonight you have to go to bed an hour early. And no bedtime story.

Dad - just to put it straight. My GNDT is 1015 for non filtered devices, or ones I can break (almost any), as explained in the charter rules

My iPhone is blocked to allows 3/4 white listed websites, and zehu. So that's what I use after 1015 till after YOUR bedtime

I claim to be a lust struggler. This calendar really helps me.

I have a feeling that this Good Night Device Calendar helps for our struggle more than we think

It is not only an alarm clock that serves to remind us when to close any device that is not fully protected

It gets into our subconscious - to remind us of our struggle throughout the day. Very likely keeps me on a higher level of alert, because of this small daily act, that's what I think and BH its

helping my long haul
