Dear brothers,

This morning I went to buy a smoke from a local shop. I bought a drink and went to sit down in a shady area to light up. I lit up and started relaxing then I realized I was directly opposite a very seductive area. I felt bad but I started rationalizing like every human does saying just look the other way. its not so bad, plug your i pod in etc..

I stood up for a second from my seat to pick up what I had dropped on the floor, then, typical Israeli chutzpah, a women grabs my seat.

I left the area taking it as a direct sign from G-d.

Whatever way you want to lead my brother Hashem will help you towards that journey.

open your eyes and take the signs.

They are everywhere.

He wants you closer IF you want to be close to him.

The time is NOW.

Act.
