

protecting my eyes

Hi all. I hope you're having a good day. I find I am challenged at work with female staff who are not dressed tznius. I work in a medical office and hospital. Any suggestions to avoid the danger my eyes face and still be friendly. I know that I am the only observant Jew that most of these people have ever met. Want to maintain a kiddish Hashem.

Thats impossible

Last I heard there was this guy tricycling in the Hospital hallways, and made SA meeting in one of the offices.

There's no signs about it???

He talks in the middle here

guardyoureyes.com/GYEFiles/MP3s/12Steps/Dov%20Workshop%201.mp3

about donating blood. Is that like tool #21?

I don't know about 'friendly' but if you talk with them with the eyes down to the floor you will definitely make a 'kiddish Hashem'.
