One of the most powerful tools for breaking addictions is to **stay out of isolation.**

But socializing is stressful for me. so either way i'm screwed.

don't have energy to do anything.

I know i have other issues, but there is no cure for that.

why am i on this site? because i'm trying. but don't have much hope.

Dear FB-Jet

after about 5 days the melancholy feeling rolls in, i just feel so

1. How do you know there is no cure for that? There actually may be!
2. How do you know we can cure lust tendencies without dealing with emotional issues which you've mentioned previously?

This article by Rabbi Dr Benzion Sorotzkin is a must read!

thanks for the link, i read the article.

However, Understanding why why I'm feeling this way and the fact that I need emotional fulfillment doesn't help. I understood the reasons behind some of my issues but if you're missing a foot knowing that you're missing a foot doesn't create one

It wasn't an abundance of understanding that I was sending your way

Its the matter of dealing with our issues and finding our feet.

I see a shrink

Have you been to one
