

Eisav's Sister

I do not know that you know

The place so dark of which i go

I dont believe you understand

My disturbed and self destructive "land"

It is a land of decadence ..but such a horrid place

To soon I wish time to erase

Then i go "just one more time "

That universe inside my mind

For i am but a boy

"Currently Single and Unemployed "

From my "wonderland " more than even the one Above

I feel surreal unconditional love

No need for any pain or depair

She is soo strong &always cares

With my confusion haughtiness and sins

Not yet to drink from Torah springs

So to self I plead with a sense fo self love

"SELF do not wallow from below -...nor peer down at people from above

NO I SAY I AM G-DLY that is me

One day no Eisav sister.... just you and me !!
