

Filtering Help

Posted by heemircha - 21 Feb 2019 03:21

---

How do i block parts of Whatsapp that i don't want? I need to have it for work, and thru it one can access gifs that i don't want access to? Help! thanks

---

As I have a Netspark filter on my phone all I needed to do was ask their customer support to block the gifs on WhatsApp and they sorted out the issue. If you have a different filter I would suggest asking them to see if they are able to find a solution. If these aren't options try adding <https://tenor.com/> (the database the gifs are from) to your filter blacklist and see if that helps.

[If none of this works perhpas try getting in touch with TAG [url][www.taghelpline.org/](http://www.taghelpline.org/)[/url]]

Good luck!
