I did avairos, and now I got a virus.

So vaccinate

**Warning: Spoiler!**

@Markz

I can't vaccinate,

it is too late.

To demonstrate, I may go,

But help me, it won't, no no.

if so, then why dont i have a virus,must be because you are closer to Hashem ,therefore Hashem expects more from you than from me...

refuah sheleima

Amen. But a refuah **sheleima** is not naturally possible, as far as I know.

refuah sheleima

Amen. But a refuah **sheleima** is not naturally possible, as far as I know.

For now, all can I say to you is, first, a Refua Chelema : even if it's technically impossible, Hachem is the Ruler of the world and nothing is impossible for Him...

Just a little story : one day, the Lubavitcher Rebbe said to a chassid who has a broken leg and was in a wheelchair

- Do you think that Hachem will cure you ?

- Yes

- Liar !!! You don't think it ! Again : do you think that Hachem will cure you ?

- Yes

- Liar !!! One again : do you think that Hachem will cure you ? Really ?!

- (With tears) Yes, absolutly !

- Then, get up and walk !

So the chassid did, and he was cured instantly...

If you really think that Hachem is the real Rofo, nothing is impossible...

Second : I can't even imagine how can we feel when we learn such a thing, but please stay here, and stay connected to Hachem...

Nothing is terminated, and you have for sure many reasons to appreciate life and the future, even with this disease...

Stay strong and high, and may Hachem helps you

Maybe I'm naive but can someone please explain what virus and what aveiros? The aveiros I think I can maybe figure out but what virus?

Thank you
