Dear ybsys

We are working together for a few weeks and I can tell you that it is very rare to see a person that is so committed to recovery like you.

The best way to make your wife confident is to be open and she will see how you're growing and becoming better and stronger which will make your relationship much better too.

?You are definitely going on the right track and you will be clean and fully recovered very soon with Hashem's Help.

Keep is all posted on your good progress.
