

Try GYE's new Chat Community!

Posted by MenachemGYE - 02 Oct 2020 12:48

We are now piloting a new chat system which we hope will become THE chat system for GYE, it using one of the best platforms in the market today called Rocket.Chat.

It's really comfortable to chat there, and it has tons of great features. Also, since it works even when you are not logged into the site, it has the potential to become much more active than the regular GYE chats, since more people will be online at any given time.

To connect to the new chat system visit guardyoureyes.com/chat for details.

To see a video about how the new chat system works go to gye.vids.io/videos/449cd7bc1e1ce0cbcd/brief-overview-of-the-gyes-new-live-chat-system

(In the meantime the regular chat system will continue working as before.)

If you have any questions, please reply to this thread or email me at help@guardyoureyes.org

.Features

- Push Notifications (optional)
- Threaded conversations (this can help keep discussions organized)
- Share voice notes and images.
- Remain logged in whenever your phone or computer is on (optional).
- For privacy, you can add passcode to access the app.
- RocketChat is a business app, so it won't look odd that you have it installed.
