

I ereased tons of saved computer p--n videos

It wasn't easy. After I broke and trashed 10 p-rn videos, having had them and watched them over 2 years, dozens and dozens of times, I clicked delete on the "real" folder - containing 1-gig worth of p-rn videos.

I hardly have any p-rn vids left. I havn't really watched p-rn for 5-mounths. I hav'nt masturbated over p-rn for 5 mounths now. I did however log on and see some illicit p-rn nature disturbing (not illegal images).

**As long as I could see the title of a video being deletd I couldn't erase it. Since I removed the real file, conntaing the downloaded real player files , i removed all the videos with one swoop - without it bringing back memories. I do though have memories sometimes of sum of the clips - and can get eroused. Thanks to p-ornaddiction.ca (spelled without the dash)- a Canadian site- I maddghed to keep of p-rn-though I still masturbate, less thanks to excelllent GYE e-mails.!**

Thanks to you all,

Shmuel
