---

I just thought that all you tzaddikim are so connected to hashem that you might enjoy such a song which you can sing privately to him.

Sing to machnisei rachamim(or whatever works for you)

Low part:

I remember a time

very long ago

that my face did glow

life was sailing smoothly

and everything was well

that it would end I could not tell

Suddenly one day,

it all came crashing down

I felt like i was going to drown

I tried to get up again

but there was no light

I felt like i was losing the fight

High part: oy oy oy oy

And I thought tatteh please take me out of this

I just want to serve you in eternal bliss

the tumah is as strong as ever

am I to stay like this forever

tatteh I feel so lost and alone

help me out i cant on my own

I believe you hear every word I say

?and one day you'll make it go away

last high part:

tatteh tatteh oh how we want you

but only you can show us what to do

well always keep fighting, as long as our neshamos are here

Because we know, a fathers love for his sons are always there
