

Ipod Touch

Posted by yrts - 23 Dec 2009 04:44

Does anyone know of a filter for inappropriate videos on youtube for an ipod touch? I blocked youtube on mine completely, but would like to at least have what is appropriate, so any suggestions accepted

Sorry, but I'm almost certain this can't be done (effectively). And I would know.

Although I'd love GYE to prove me wrong.
