I need help, should I stop taking multivitamins? Does it make people masturbate more if they take multivitamins?

I don't think the multivitamins are a threat.

I do know that when I take a certain brand of multi vitamins I feel more energetic in general, but I am more often tempted to masturbate at the times I feel tired.

@ MARKZ

I am a student

Why would you think a multivitamin would help someone masterbate

To my knowledge it doesnt
