Does taking vitamins make people masturbate more? Posted by Anonymous1234567 - 28 Aug 2022 21:30
I need help, should I stop taking multivitamins? Does it make people masturbate more if they take multivitamins?

I don't think the multivitamins are a threat.
I do know that when I take a certain brand of multi vitamins I feel more energetic in general, but I am more often tempted to masturbate at the times I feel tired.
