

Filters

Hi chevra,

Over the years I have tried many different filters, but to no avail. Almost all of them have ways to break through. I heard that Netspark and Gentech are good, but they cost 15\$ a month, and I don't as of yet have any income. Is there anyone who sponsors filters for people, and also, have people found success with these filters?

Thanks

There are sometimes sponsors, depending on the level of sincerity and commitment you have. PM me or email for more info.
