IT BECAME MY HABIT

I need to masturbate to sleep. when I have insomnia it's because I don't masturbate. lust guides me to look for women to talk about sex.

Welcome holy brother! Glad you took the courage to post. Sounds like you have a pretty difficult situation creating a strong pressure to masturbate and haven't been too successful solving it.

Hopefully you can gain insights here of strategies and solutions as well as a group of warm friends of can give emotional support!

Hatzlocha!

Welcome to GYE! Let's hope you'll find the right guidance and support within this amazing community.

The first thing I would suggest is to change the wording in your post...

You wrote: "I need to masturbate to sleep. " you can change it to: "I feel like I need to masturbate to sleep. " --- see the difference?

I have the opposite habit. I cant get out of bed without masturbating.

if you tell me how to get out of bed in the morning without M i will tell you how i go to sleep without M.

Thank you for sharing!!! You are on your way to changing your life for the better.

I don't say that to be glib or dismissive or sardonic. It's just what works for me. I go to bed early and wake up when it is still dark.
What works for me: I sleep less

Also exercise helps. It doesn't have to be going to the gym. It can just be a walk around the block no matter what, even in cold weather. Find a cafe that you like. It's my understanding that black coffee with no flavoring is always kosher from anywhere, if that helps. Ask your rabbi for how he *poskens* for you.

Consider a pet. Attending to the pet's needs distracts me in a good and beneficial way.

If I refrain from porn and masterbation, does the lust go away?

Everyone's different, but for me it does at times. Other times not. But after some time it does become much more manageable. When we're deep in it, it always pops back up full force and so hard to ignore.
