GYE Apps
Posted by concernedjew21 - 05 Oct 2023 23:44

_____

Are there any GYE apps?

I don't have a browser on my device so when I'm feeling low I can't access the GYE website but an app for the SOS tool or Flight2Freedom program would be perfect.

If there aren't, is it something that is in development? I really think people in similar situations to mine can benefit.

Thank you!

_____

There is an app. I have it on my phone and i was just talking to iwannalivereal last night and today about making it work on flip phones if that's what you're looking for. I have it on my flipphone but most phones need apps to be modified before they can work. What phone are you asking for? You can pm me if you want
