

I want to put my filter on the highest level but...maybe you can help!

Due to recent falls I have decided that I need to put my filter on the highest level. I know this is not THE solution, it is however a step in the right direction. My only concern is that the highest level of K9 blocks one thing that I NEED for my recovery: CHATS. Chatting with fellow addicts is one the best ways for me to get into and stay in recovery. Does anyone know how I can put the filter on the highest level and still be able to chat on gmail and aol? Please help if you can I would like to get my filter onto the highest level as soon as possible.

Thanks to everyone
