Woodford is a bourbon

It can be bought in almost any liquor store in the USA

Hechsher:
And if Bardichev is back (sorry, I couldn't resist the capital

Borboun trditionally needs no hechsher it is avery very regulated material by the us government

Now there was a big deal made of a lot of borbouns being owned by jews therefore being a shayla of xhomets she'var alav hapesach

Woodford is not on the list

The list is on the AKO's website

So Ichaim

did you read the Handbook?

just kidding, it is the unofficial official drink of GYE, as directed by our leader and rebbe,
bardichev, who is wont to imbibe of it at various happy occasions, as well as in between them
