

thought process on the battlefield

Posted by Shteeble - 05 Nov 2010 13:42

---

This is a thread for everyone to post ideas about the thought process that goes through the brain when confronted with an urge to chase taivos noshim.

Working together, we can incorporate a chronological thought process to follow that gives us the best odds of overcoming each battle, instead of leaving the thought process to the whim of our mood or situation.

Please post any and all ideas that you think would be helpful.
