Tayre Yidden.

A lot of us are doing the daf. The obvious problem is, that we see a lot of interesting things in the daf, but do not really understand them. And not everybody has the time to look things up. Kol sheken maseches brochos, each daf is velten (worlds)!

So, wouldn't it be geshmak, if each of us would just write the pirushim/vorten/vertlach he saw and liked most here? like this it would be much easier to get the right overview over the daf and be mezake et haRabim.

mar'e mokoymos are certainly appreciated as well.
