Posted by daledadar.3 - 07 Aug 2017 21:32

We all try to avoid the avieros associated with this site

Why ???

I know ...then dont ...then do ...then sort of do

Now I do However ..

I had to place it in my head. The SA white book "What is wrong with lust" part, did that

Hihurim the acting out which I do, is really no different then

...the guy who reaches for weed when he gets fired

The woman who can't stop holding back on that donut when she feels hurt by her husband

The teenager who takes a puff for fear of not fitting in at yeshiva

There is life-and escape ie DRUGS

Drugs come in different forms

Kedoshim and is all about livng a healthy balanced holistc lifestyle

Maybe in some ways I didnt "want' to get it

Now I am able to answer "im yishalcha adam" as Rashi comments on the words "vishenantam livanehca" I guess now, it is, as the words previous to that in shema, it is "on my heart "

Thanks you Mr White Book guy for a lesson I was taught at fourteen

Is now part of me intelletually ..and more

The only healthy obsession slash drug is limude HaTorah
