I would like to give you all my Birchas Hedyoit, you should all have a Kesiva Vachsima Tove, a good and healthy year, you should only see Yiddish Nachas from all of your children, they shouldn't never ever have to struggle what we go through, we should have a clean year, all year round, clean eyes, clean hands, clean thoughts, we should have it easy, and we should allways have for our eyes the upside of being clean and the down side of not being clean, none of our kids should go off from the derech, we should have tons of money, and we should earn it on an easy and clean way.

At this time i would like to apologize if i hurt anyone in any way, i didnt meant to hurt anyone, if anything, i meant only good.

i would like to thank you all, with out you i would never be where im now..
