The above Kedushas Levi gave me a lot of chizuk, so I'm sharing it with the oilem.

As Yidden, we know that everything that happens in this world is orchestrated by Hashem for a good reason, which will benefit Klal Yisroel as a whole and us personally, and ultimately we will Be'h be zochas to see Moshiach in our times.

Often, when we fall, we feel like idiots, how has this happened to me again? Will something ever change? I'm doomed! Everyone hates me! Hashem is here to get me! ect.

But here the Kedushas Levi is saying - No dear Tzadikim! it's all part of His divine plan. We have to work that fall shouldn't happen but if it does happen, know that it's what Hashem wanted, and not only will you come back stronger as the Kedushas Levi says. The whole universe is benefiting from us white-knuckling to get out of this mud because while we are doing that we are ????? ????????? from the Tumah we fell too.
