Lets try again Posted by aderuce123 - 09 Jan 2013 17:14
This is my second try with GYE.
My first, a few years back, I used the title allaloneontop. I still feel lonely, especially in my new home but I chose a diff screen name this time so as not to focus on me, nut my addiction.
This was the code name I used during my addiction growing years in Yeshiva. I got to 8 days just now (really 10, took two days to have the courage to sign up again). I was doing great, but fell last night. Terrible. I knew this would happen. I'm in a hotel. By myself. I went into "that zone" and couldn't get out until I masterbated. I even had relations with my wife prior to leaving homewhat do I need to do in these situations? I've had enough of this already.

Welcome back.
I work a 12 step program for my addiction. That is my hishtadlus. Hashem does the rest.
I like the title of this topic, because i try again every morning.
Its one day at a time, buddy!
